

COPPER LATTICE

APPLICATION

Lattice Copper Earth Mats are used where step potential could cause problems.

They are a lower-cost protective earth option to the solid plates and they provide a long-lasting earth solution. Generally used as an electrode where significant amounts of fault current can be encountered.

Dimensions (mm) L x w	Thickness mm	Surface Area M ²	Grid	Weight (kg)
600 x 600	3	0.31	5 Bar	4.02
900 x 900	3	0.65	5 Bar	5.9
