

EYE NUT M16

The eye nut is most commonly used for dead ending, back-guying, and attaching pole head guys on the threaded ends of cross arm bolt.

The eye nut is helpful on the overhead power lines and pole line construction.

The breaking load of the forged eye nut is more than 55kn. The surface treatment of the eye nut is hot dip galvanization. The required mark and the size 5/8 or 3/4 appear on the bottom of the eye nut.

SPECIFICATIONS
