

Geberit HDPE BottomTurn bend

Example image

Application purposes

- For building drainage
- For buildings with more than five floors (high-rise buildings)
- For use with Geberit HDPE Sovent fitting d110

Characteristics

- Can be welded on both sides with electrofusion coupling

- UV-resistant
- With SuperTube technology

Technical data

Maximum discharge rate	12 l/s
Product material	PE-HD

Art. no.	Colour / surface	DN	d, ø	arc
367.615.16.1	black	100	110 mm	90 °
